# Volume 97 1979

## Table of Contents

No. 1 1–318 issued on June 15, 1979
No. 2 319–630 issued on July 2, 1979

Nomenclature Committee of the International Union of Biochemistry (NC-IUB). Units of Enzyme Activity. Recommendations 1978 319

### Nucleic Acids, Protein Synthesis, and Molecular Genetics

Purification and Characterization of Proinsulin mRNA from Rat B-Cell Tumor
*N. Itoh, K. Nose, and H. Okamoto* 1

Peptide Bond Formation Stimulated by Protein Synthesis Factor EF-P Depends on the Aminoacyl Moiety of the Acceptor
*B. R. Glick, S. Chládek, and M. C. Ganoza* 23

Ribosome Biosynthesis Is not Necessary for Initiation of DNA Replication
*F. Grummt, I. Grummt, and E. Mayer* 37

Nuclear-Magnetic-Resonance Study of the Conformation of a Dinucleotide in Solution Using the Lanthanide Probe Method
*C. F. G. C. Geraldes and R. J. P. Williams* 93

Two Chromatin Fractions with Different Metabolic Properties of Non-histone Proteins and of Newly Synthesized RNA
*L. Djondjurov, E. Ivanova, and R. Tsanev* 133

The Kinetics of ATP-Dependent Exonuclease V from *Micrococcus lysodeikticus*. A Michaelian Dependence on DNA Concentration
*F. Palittì, A. Vellante, G. Cerio-Ventura, P. Fasella, C. Salerno, and E. Whitehead* 147

Translation *in vitro* of *Tetrahymena pyriformis* Polyadenylated mRNA. Identification of Tubulin amongst the Translated Products and Demonstration of Its Heterogeneity
*M.-M. Portier, M. Milet, and D. H. Hayes* 161

Phytochrome-Induced Appearance of mRNA Activity for the Apoprotein of the Light-Harvesting Chlorophyll *a*/*b* Protein of Barley *(Hordeum vulgare)*
*K. Apel* 183

Partial Purification and Characterization of the Proteins from the 40-S Ribosomes of *Artemia salina* and Wheat Germ
*C.-Y. Ting Shih, J. E. Toivonen, and G. R. Craven* 189

Purification and Properties of RNA-Dependent DNA Polymerase from Cytoplasmic A-Type Particles of Murine Mammary Tumor Virus
*M. Kohno and A. Ishihama* 257

Nucleotide Sequence of Three Isoaccepting Lysine tRNAs from Rabbit Liver and SV40-Transformed Mouse Fibroblasts
*M. Raba, K. Limburg, M. Burghagen, J. R. Katze, M. Simsek, J. E. Heckman, U. L. Rajbhandary, and H. J. Gross* 305

Changes in the Frequency and Diversity of Messenger RNA Populations in the Course of Myogenic Differentiation
*M.-P. Leibovitch, S.-A. Leibovitch, J. Harel, and J. Kruh* 321

Relationship between Single-Stranded DNA Isolated from Cultured Muscular Cells during Differentiation and the Transcription of Messenger RNA
*S.-A. Leibovitch, M.-P. Leibovitch, J. Kruh, and J. Harel* 327

Photo-Induced Protein-RNA Cross-Linking in Mammalian 60-S Ribosomal Subunits
*M. Buisson, A.-M. Reboud, M.-J. Marion, and J.-P. Reboud* 335

Binding of Antibodies against Histone H1 to Unfolded and Folded Nucleofilaments
*K. Takahashi and Y. Tashiro* 353

DNA Polymerase β from Brain Neurons Is a Repair Enzyme
*J. Waser, U. Hübscher, C. C. Kuenzle, and S. Spadari* 361

The Excision of *N*-Methyl-*N*-nitrosourea-Induced Lesions from the DNA of Chinese Hamster Cells as Measured by the Loss of Sites Sensitive to an Enzyme Extract that Excises 3-Methylpurines but not $O^6$-Methylguanine
*J. Shackleton, W. Warren, and J. J. Roberts* 425

The Structure of a Transcriptional Unit on Colicin E1 Plasmid
*M. Morita and A. Oka* 435

Purification of Albumin mRNA from Rat Liver. Content of Albumin-Specific Sequences in Cytoplasmic and Nuclear RNA
*E. Hofer, A. Alonso, L. Krieg, U. Schätzle, and C. E. Sekeris* 445

The Ternary 5-S RNA Complex of Proteins L18 and L25. A Small-Angle X-Ray Scattering Titration Study
*R. Österberg* 463

Yeast Phenylalanyl-tRNA Synthetase. Affinity and Photoaffinity Labelling of the Stereospecific Binding Sites
*M. Baltzinger, F. Fasiolo, and P. Remy* 481

Methylation of Basic Proteins in Ribosomes from Wild-Type and Thiostrepton-Resistant Strains of *Bacillus megaterium* and Their Electrophoretic Analysis
*M. Cannon and E. Cundliffe* 541

Higher-Order Structures of Chromatin in Solution
*P. Suau, E. M. Bradbury, and J. P. Baldwin* 593

The Mode of Inhibitory Action by Aphidicolin on Eukaryotic DNA Polymerase α
*M. Oguro, C. Suzuki-Hori, H. Nagano, Y. Mano, and S. Ikegami* 603

A New Purification Scheme for Elongation Factor 1 from Rabbit Reticulocytes and Investigation of the Homology of the Subunits with Those of Initiation Factor 2
*S. Moretti, T. Staehelin, H. Trachsel, and J. Gordon* 609

Chemical Evidence for a Codon-Induced Allosteric Change in $tRNA^{Lys}$ Involving the 7-Methylguanosine Residue 46
*R. Wagner and R. A. Garrett* 615

## Protein Chemistry and Structure

Nuclear-Magnetic-Resonance Study on Met-enkephalin and Met-enkephalinamide. Molecular Association and Conformation
*T. Higashijima, J. Kobayashi, U. Nagai, and T. Miyazawa* 43

$^1$H-Nuclear-Magnetic-Resonance Studies on Glycophorin and Its Carbohydrate-Containing Tryptic Peptides
*M. R. Egmond, R. J. P. Williams, E. J. Welsh, and D. A. Rees* 73

Purification, Some Properties and the Complete Primary Structures of Two Protease Inhibitors (DE-3 and DE-4) from *Macrotyloma axillare* Seed
*F. J. Joubert, H. Kruger, G. S. Townshend, and D. P. Botes* 85

Hydrodynamic Parameters of the Detergent-Solubilised Hydrogenase from *Paracoccus denitrificans*
*E. Sim and R. B. Sim* 119

Crosslinking Studies with the Pyruvate Dehydrogenase Complexes from *Azotobacter vinelandii* and *Escherichia coli*
*R. A. De Abreu, J. De Vries, A. De Kok, and C. Veeger* 379

Porcine Pancreatic Lipase. Sequence of the First 234 Amino Acids of the Peptide Chain
*J. D. Bianchetta, J. Bidaud, A. A. Guidoni, J. J. Bonicel, and M. Rovery* 395

Polymerization of the Bacterial Elongation Factor for Protein Synthesis, EF-Tu
*B. D. Beck* 495

Interaction of ADP with Skeletal and Cardiac Myosin and Their Active Fragments Observed by Proton Release
*E. Kardami, S. de Bruin, and W. Gratzer* 547

## Enzymology

Purification, Characterization and Localization of Serine Protease of Morris Hepatoma 8999
*Y. Banno, H. P. Morris, and N. Katunuma* 11

Characterization of an Adenosine Triphosphatase from Myeloblasts Infected with the Avian Myeloblastosis Virus
*R. K. Banerjee* 59

Purification and Properties of a Histone Acetyltransferase from *Artemia salina*, Highly Efficient with H1 Histone
*A. Cano and A. Pestaña* 65

Purification and Some Properties of a Hitherto-Unknown Enzyme Reducing the Carbon-Carbon Double Bond of α,β-Unsaturated Carboxylate Anions
*W. Tischer, J. Bader, and H. Simon* 103

Oligosaccharide and Ganglioside Neuraminidase Activities of Mucolipidosis I (Sialidosis) and Mucolipidosis II (I-Cell Disease) Fibroblasts
*M. Cantz and H. Messer* 113

*N*-Acetylaminoacyl-*p*-Nitranilidase from Human Placenta. Purification and Some Properties
*T. Unger, M. Nagelschmidt, and H. Struck* 205

Enzymic Synthesis of Lignin Precursors. Further Studies on Cinnamyl-Alcohol Dehydrogenase from Soybean-Cell-Suspension Cultures
*D. Wyrambik and H. Grisebach* 503

Evidence for Ligand-Induced Conformational Changes in Rabbit-Muscle Glyceraldehyde-3-Phosphate Dehydrogenase
*Y. I. Henis, A. Levitzki, and A. Gafni* 519

Immunochemical Studies of Beef Pancreas Tryptophanyl-tRNA Synthetase and Its Fragments. Determination of the Number of Antigenic Determinants and a Comparison with Tryptophanyl-tRNA Synthetases from Other Sources and with Reverse Transcriptase from Avian Myeloblastosis Virus
*V. Sh. Scheinker, S. F. Beresten, A. M. Mazo, N. S. Ambartsumyan, O. V. Rokhlin, O. O. Favorova, and L. L. Kisselev* 529

Enzyme Memory. Effect of Glucose 6-phosphate and Temperature on the Molecular Transition of Wheat-Germ Hexokinase LI
*J.-C. Meunier, J. Buc, and J. Ricard* 573

## Carbohydrates, Lipids and Other Natural Products

Metabolic Carbohydrate-Labelling of Glycolipids from Mouse Splenocytes. Mitogen-Stimulated B and T Cells Show Different Labelling Patterns
*G. Rosenfelder, R. V. W. van Eijk, and P. F. Mühlradt* 229

Papulacandin B: an Inhibitor of Glucan Synthesis in Yeast Spheroplasts
*B. C. Baguley, G. Römmele, J. Gruner, and W. Wehrli* 345

Monomer-Micelle Transition of the Ganglioside $G_{M1}$ and the Hydrolysis by *Clostridium perfringens* Neuraminidase
*H. Rauvala* 555

Regions of the Lipopolysaccharide of *Pseudomonas aeruginosa* Essential for Antitumor and Interferon-Inducing Activities
*K.-i. Tanamoto, C. Abe, J. Y. Homma, and Y. Kojima* 623

## Physical Biochemistry

Dissociation and Aggregation of Lactic Dehydrogenase by High Hydrostatic Pressure
*G. Schmid, H.-D. Lüdemann, and R. Jaenicke* 407

## Membranes and Bioenergetics

Generation of High $\Delta\psi$ in Respiring Submitochondrial Particles by Steady-State Accumulation of Oxidized *N,N,N',N'*-Tetramethyl-*p*-phenylenediamine
*R. Sagi-Eisenberg and M. Gutman* 127

Outer Membrane Proteins of Smooth and Rough Strains of *Proteus mirabilis*
*S. Rottem, O. Markowitz, M. Hasin, and Sh. Razin* 141

Trans-membrane Translocation of Proteins. The Direct Transfer Model
*G. von Heijne and C. Blomberg* 175

Binding of Semliki Forest Virus and Its Spike Glycoproteins to Cells
*E. Fries and A. Helenius* 213

Methyl Acceptors for Protein Methylase II from Human-Erythrocyte Membrane
*P. Galletti, W. Ki Paik, and S. Kim* 221

Ionized and Bound Calcium Inside Isolated Sarcoplasmic Reticulum of Skeletal Muscle and Its Significance in Phosphorylation of Adenosine Triphosphatase by Orthophosphate
*R. Prager, C. Punzengruber, N. Kolassa, F. Winkler, and J. Suko* 239

On the Efficiency of Oxidative Phosphorylation in Membrane Vesicles of *Azotobacter vinelandii* and of *Rhizobium leguminosarum* Bacteroids
*C. Laane, H. Haaker, and C. Veeger* 369

3' Esters of ADP as Energy-Transfer Inhibitors and Probes of the Catalytic Site of Oxidative Phosphorylation
*G. Schäfer and G. Onur* 415

Properties of the $F_0F_1$ ATPase Complex from *Rhodospirillum rubrum* Chromatophores, Solubilized by Triton X-100
*E. Schneider, H.-W. Müller, K. Rittinghaus, V. Thiele, U. Schwuléra, and K. Dose* 511

Mitochondrial ATPase Complex of *Aspergillus nidulans* and the Dicyclohexylcarbodiimide-Binding Protein
*G. Turner, G. Imam, and H. Küntzel* 565

Aggregation of Sponge Cells. Isolation and Characterization of an Inhibitor of Aggregation Receptor from the Cell Surface
*W. E. G. Müller, R. K. Zahn, B. Kurelec, I. Müller, P. Vaith, and G. Uhlenbruck* 585

## Cellular Biochemistry and Metabolism

Permissive Effect of Dexamethasone on Glucagon Induction of Urea-Cycle Enzymes in Perifused Primary Monolayer Cultures of Rat Hepatocytes
*R. Gebhardt and D. Mecke* 29

Regulation of Glycogen Synthesis in Rat-Hepatocyte Cultures by Glucose, Insulin and Glucocorticoids
*C. Schudt* 155

External and Internal Forms of Yeast Aminopeptidase II
*J. Frey and K.-H. Röhm* 169

Effect of Sulphated Glycopeptides on Kinetics of 3-*O*-Methyl Glucose and 2-Deoxyglucose Transport by Epithelial Cells Isolated from Rabbit Small Intestine
*N. Mian, C. E. Anderson, and P. W. Kent* 197

The Hormonal Control of Glycogen Metabolism. Phosphorylation of Protein Phosphatase Inhibitor-1 *in vivo* in Response to Adrenaline
*J. G. Foulkes and P. Cohen* 251

Turnover Rates of Hexokinase I, Phosphofructokinase, Pyruvate Kinase and Creatine Kinase in Slow-Twitch Soleus Muscle and Heart of the Rabbit
*D. Illg and D. Pette* 267

Endogenous Role of Epoxide Hydratase. Development of a Steroid Epoxide-Hydratase Assay and Properties of the Enzyme
*U. Bindel, A. Sparrow, H. Schmassmann, M. Golan, P. Bentley, and F. Oesch* 275

Activities of NAD-Specific and NADP-Specific Isocitrate Dehydrogenases in Rat-Liver Mitochondria. Studies with D-*threo*-α-Methylisocitrate
*C. M. Smith and G. W. E. Plaut* 283

Intracellular Enzymes of Collagen Biosynthesis in 3T6 Fibroblasts and Chick-Embryo Tendon and Cartilage Cells
*L. Risteli, J. Risteli, L. Salo, and K. I. Kivirikko* 297

The Effect of Octanoate and Palmitate on the Metabolism of Valine in Perfused Hindquarter of Rat
*Ø. Spydevold* 389

Subcellular Distribution of Membrane-Bound Glycosyltransferases from Pea Stems
*M. Dürr, D. S. Bailey, and G. MacLachlan* 445

The Association of Actin with a Thyroid Lysosomal Fraction
*J. G. Dickson, P. G. Malan, and R. P. Ekins* 471
